

OVERSEAS CONFERENCE 2023

PUNTA CANA - DOMINICAN REPUBLIC

Moving Towards Future Pharmacy is our chosen theme for 2023, and we will deliver a conference that will address pharmacy issues, the political environment and the NHS health sector. We will encourage a new vision and ways to present the vital role of community pharmacy. The conference will have a whole range of keynote speakers and presenters who have been drawn from the emerging technologies, from the government, from the major health sectors and from award winning pharmacy practitioners.

This is your opportunity to network and engage with your colleagues in the most important debate for pharmacy in Britain. It is our vision that we may all benefit from 'Moving Towards Future Pharmacy'. We hope you can make the date and get inspired and motivated to build your business for the future.
